Indicted as Trujillo Agent

WASHINGTON, May 13 (AP).—A Federal grand jury today indicted Joseph Frank, forty-two-year-old Washington attorney and former F.B.I. agent, on charges of acting for the Dominican Republic in this country without registering as a foreign agent.

Mr. Frank also is a former employee of the Central Intelligence Agency.

The one-count indictment said Mr. Frank, "also known as John Kane," was a Dominican agent from May, 1954, until the present. Mr. Frank was accused of collecting information for Generalissimo Rafael Trujillo, the Dominican dictator.

The indictment was made public several weeks after the grand jury was reported receiving evidence in connection with the disappearance of Jesus de Galindez, Columbia University professor and bitter critic of the Trujillo regime. Prof. De Galindez disappeared from New York in March, 1956. His friends contended he had been kidnaped.

Penalties Listed

The offenses charged against Mr. Frank—failing to register and acting as a foreign agent without registration with the Attorney General—are punishable by fines of up to \$10,000 and imprisonment for five years on each count, in the event of conviction.

Mr. Frank was an F. B. I. agent from 1941 until early 1949 and later was employed by the C. I. A. He left government work to enter private law.

Shortly after the indictment was returned, the F. B. I. said Mr. Frank had been taken into custody in Washington.

For most of last year, Frank, Lin D. Roosevelt Jr. and Washington attorney Charles Patrick Clark were registered foreign agents for the Dominican Republic, serving as general advisers. They have given up this association.
